## OUT THEY WILL GO

OFFICEHOLDING DAYS OF KANSAS POPS ARE NUMBERED.

GRAND SCATTERING SOON

NEW BOARD OF CHARITIES TO HAVE A GENERAL CLEANING OUT.

Republicans Made a Hit With Their Twine Factory Scheme-County Attorneys' Salaries - Tom Anderson on the Warpath Again.

TOPEKA, Feb. 18 .- (Special.) There will soon be a grand scattering of Populist officials at the various state institutions. The new board of charities appointed by

COLONEL T. J. JACKSON, Copy Clerk in the House and a Legislative Oldtimer.

and organize. George W. Kanavel will probably be chosen chairman to preside until April 1, when Grant Hornaday goes two years. However, Mr. Hornaday will be in close touch with the new board up until April 1, and whatever changes are agreed upon before the formal change in April will be with his approval,

It is proposed by the new board to put the ax in motion immediately, although the Pop victims may not know that they have been beheaded until April. It is absolutely certain that there will be no Democrats or Populists retained at the institutions. There is no doubt that some of the Pop-ocrats now at the institutions are good fellows, but the Republican board figures that they will be better Popocrats out of jobs than with them, and will let them

Reuben Vincent, of Washington, membe of the new board, said to-day that there would be no changes made until April 1, although many would be agreed upon in the meantime. He would not admit that several had already been agreed upon by the powers that be.

It can be said on good authority that Dr. T. C. Biddle, of Emporia, will be su-perintendent of the Topeka asylum. He was superintendent of the Osawatomie asylum under the Morrill administration Dr. Eastman, the old superintendent of the Topeka asylum, is pulling every string to

sons for the positions at the various institutions. He told his private secretary to-day not to let a man into his private

## **Hidden Beauty**

In Egypt the custom is for Princesses to hide their beauty by covering the lower part of the face with a veil. In America the beauty of many of our women is hidden because of the weakness and

ian custom prevailed in this country, many sufferers would be glad to cover their premature wrinkles, their sunkencheeks, their unnealthy world with the veil of the Orient.

complexion, from the eyes of the

## Bradfield's Female Regulator

brings out a woman's true beauty. It makes her strong and well in those organs upon which her whole general health depends. It corrects all menstrual disorders. It stops the drains of Lencorrhoa. It restores the womb to its proper place. It removes the causes of headache, backache and nervousness. It takes the poor, debilitated, weak, haggard, fading woman and puts her on her feet again, making her face beautiful by making her body well.

Druggists sell it for \$1 a bottle. Send for our free illustrated book for women. The Bradfield Regulator Co., Atlanta, Ga.

office who wanted to talk about a job at the institutions. He intends to leave that work with the state board of charities ex-

The state board of charities has about 600 jobs to give out. By April 15 there will be 600 jobless Pops and 600 happy Repub-licans. Godness only knows how many disappointed Republicans there will be.

Two of the most conspicuous figures among the legislative employes are Colonel T. J. Jackson, copy clerk of the house, and Sol Long, reading clerk of the senate. They look alike, act alike, talk alike, and on the quiet) drink the same brand. The only difference between them is their poll-Colonel Jackson is an ardent Republican, while Long is a Popocrat. The colo-nel is an oldtimer around the legislature. When he is not a member he is an emservices are indispensable. Sol has not been around the legislature as long as the colonel, but he, too, is a useful adjunct, especially around the Pops, on account of his ability to talk. He often sets his mouth in motion and reads for hours without taking a breath. It runs automatically, While doing this the other day, Senator Hessin the perpetual motion question. One trait admired about him is the easy and graceful manner with which he juggles the truth-politically speaking. He can out Leahy Leahy. Frequently he is taken for Colonel Jackson or Colonel Cody, and has got many a free drink on the strength of it. Before the Marks contest was settled, Marks used to go over to the senate and toy with Sol's whiskers for luck. since Marks won, the Pops who nightly indulge in a little game of draw come around, run their hand through his lilacs and then go out and-lose. A biographer once wound up a sketch of Sol with this charge, which Soi has never denied: "He is noted chiefly for his wide, untraveled waste of cheek and his bottomless sea of gall."

The most popular measure that has been before the legislature for years is that to establish a binding twine factory in the penitentiary, which passed both houses vesterday. It is regarded by all as a happy hit and the proper solution of the vexed question of convict labor. Within the next two months, a number of contractors will pull their shops out of the prison and throw a large number of convicts back onto the state. This legislature will pass the bill prohibiting the sale of convict mined coal in the open market. This will greatly reduce the mining force. What to do with the convicts was a question that confronted the prison management. All agreed that wicts must be kept at work. The twine factory solves the question. They can be put to work in it. Their product does not come in contact with any free labor in Kansas, and, besides, it will bring down the price of twine. The trust will

"TWINE BINDER" SEATON. Father of a Scheme to Make Twine at the State Penitentiary.

have to come to terms in Kansas, as it is said to have done in Minnesota. Charles E. Faulkner, formerly superinhome at Atchison, but now in charge of a similar institution in Minnesota, was the first to suggest the scheme to Kansas. He is an intense Kansan, and is always looking about to see if he can find something that will help the state. Shortly before the legislature convened he wrote to Captain Seaton, of Atchison, and told him about the twine business. The captain took the matter up, and as a result a factory is to be established.
State Senator Lupfer, Pop, of Pawnee,

in discussing the matter with a Journal correspondent to-day said: "We Populists are kicking ourselves because we did not think of the binding twine scheme at the extra session. Had we rushed that bill through we could have swept the state next year. The farmers would have felt the benefit directly and they would have voted for us. We made a serious mis-

There are, in the opinion of the house mighty few honest county attorneys in Kansas. For over two hours last night the county attorney section of the general fee and salary bill was under discussion, and during that entire time county attorneys were being rapped continually for their dishonesty. The discussion was all onesided. No one stood up for that very much abused class of public servants. The law-yer members of the house themselves made no defense of their co-workers. Most of them had been county attorneys themselves at some time. The nearest any one came to standing up for them was Pete Gregory, of Osage. He said he did not blame county attorneys for stealing. He would do it himself if he were a county attorney and the people attempted to rob him of a

decent living by cutting down the salary that a Chinaman could not live on. This remark brought forth applause.

The tenor of all the remarks on that provision of the fee and salary bill was in favor of putting the salary at a figure where a county attorney could afford to be honest. The injuntous for switch. honest. The iniquitous fee system, many contended, was simply an invitation to county attorneys to steal. The clause giving county attorneys all the fees they col-lected was knocked out, and the salaries were raised to an amount that would be an incentive for a man who went into the office honest to remain honest.

There was also a spirited discussion lasting an hour or more as to what fee a juror in a justice court should receive. The present law gives him 50 cents a day. The committee on fees and salaries recommended no change. When that section was reached. De Bard thought it should be raised to \$1. He said a man could not af-ford to sit on a jury all day for 50 cents. Burkholder, chairman of the fees and salary committee, said that justice jurors had not asked for any raise, and that the amount should not be changed. Loomis, Pop, of Crawford, said it was

an outrage to ask a man to sit on a jury all day and part of the night for 50 cents. He believed in paying good salaries. He moved that the house make it 75 cents. Rhinehart, Republican, declared that 50 or 75 cents might be enough for a city man, but that in the country, where the farm-ers were busy since the arrival of pros-perity, they should be given more. He

Welch, of Harvey, said his experience had taught him that the average juror of the justice of the peace court was not worth over 50 cents, on or off the jury; that such jurors were usually loafers and that in small places they made the jus-tice shop their loading place; that they were elated to get on a jury at the pres-ent price and, in order to do it, often went out and stirred up cases for the justice.

McKeever was of the same opinion. He said that Topeka was filled with philosophers who were anxious to sit on a jury for 50 cents. "They can probably guess just as accurately as anybody else," said he, By all medicine dealers. phers who were anxious to sit on a jury

"but as long as they have not petitioned this honorable body to raise the ante we should not do it." After a running argu-ment of this kind for over an hour the fee vas left at 50 cents.

Major Tom Anderson, senator from Shawnee, has put his blanket on again. This time it is not on account of Shawnee county being ignored by Governor Stanley in the selection of appointments, but because the house ways and means committee has reported adversely on the bill making one-fourth of a mill levy for the completion of the state house. The senate committee has recommended the bill for passage. When the major heard of the action of the house committee, he went out into the house committee, he went out into the corridor, "cussed" a few lines and then sent an ultimatum to the house commit-tee. It read:

sent an ultimatum to the house committee. It read:

"Either put the one-fourth mill levy bill
through the house or I will see that your
bills to improve other state institutions
are defeated."

"I took part in the ceremonies when the
corner stone of this state house was laid
thirty years ago," said Major Anderson to
The Journal to-day. "I want to live to
see it completed. I am going to do so.
That's fully settled. The house will either
pass that bill this time, or I will know the
reason why."

City Marshal James McClain, of Winfield, was the guest of Representative Ed

MAJOR TOM ANDERSON

Jaquins, a portion of the past week. While here he interested himself in some pending legislation. He did not care anything for the bills introduced governing the office of city marshal of second class cities. He had bigger fish to fry. McClain is the crack wing shot of Kansas, and he wants to see a good game law passed. There are a half dozen bills pertaining to that subject now before both branches. None of the bills, he says, is satisfactory to sportsmen.

the bills, he says, is satisfactory to sportsmen.

He has urged Mr. Jaquins to insist on the open season for quail and prairie chicken being made November and December. At present it is October and November, McClain says that quail and chicken are so young in October that they cannot get out of the way, and as a result hunters slaughter them that month. If they are given another month to develop he says that good hunters would like it, and game would not be killed off so closely.

Senator Zimmer is much gratified over getting his Wyandotte road law through. It provides that the commissioners of Wyandotte county may levy a 2 mill tax on all taxable property in the county for the improvement of the Quindaro boulevard, the Redy road, the Turner road, the Rosedale road, Parallel road and Missouri river road. The bill provides further that the commissioners must begin on the end of each road nearest the county seat and improve out into the country each year just as far as the money will last. In this way Zimmer says that in five years Wyandotte county will have the best system of macadamized roads of any county in the West. All of these roads have already been graded. That was done under the old Buchan road law. The grading was the expensive end of the work, although it did not cost the taxpayers there much. not cost the taxpayers there much the roads were graded with money

ED JAQUINS One of the Leaders of the Minority in the House.

received from the sale of road certificates in the East, those benefited by the im-provement went into court and had the bon's declared worthless through the un-constitutionality of the Buchan road law.

A good story is told on Representative Stanley, of Lincoln county. A few nights ago at the dinner table a number of the

not marry her unless he was absolutely positive that he was the very best man in all the world that she could marry.

According to this a man would have to be very conceited indeed or remain a deed or remain a This is going a lit- tle bit to extremes, but in sober fact, no man should marry a woman so long as he is the victim of ill-health. No man has a right to ask a

Oliver Wendell

woman not only to be his wife, but a life-long nurse. No man has a right to ask a woman to share the burden of his ill-health, and that is what he does when he asks her to be his wife. Ill-health in man is almost invariably the result of disorders of the directive and nutritive organs. If of the digestive and nutritive organs. If of the digestive and nutritive digans. It a man's stomach is right and his liver right, his blood will be pure and rich, and his nerves strong and steady. When the blood is pure and rich a man cannot suffer from ill-health. Dr. Pierce's Golden Medical Discovery is the great digestive tonic. It is not a mere appetize, but a scientific aid to the natural processes of secretion and excretion. It makes the appetite keen and hearty, promotes the flow of digestive juices, makes the assimilation perfect, the liver active and the blood pure and rich. It builds firm, healthy flesh tissues. It is the greatest known nerve tonic. sues. It is the greatest known nerve tonic

and restorative.

Mrs. P. Mortenson, of Sanger, Oliver Co., N. Dak., writes: "Dr. Pierce's Golden Medical Discovery is the best cough medicine I ever tried. A little over two years ago I was afficited with a very bad cough and my home physician prescribed Cod Liver Oil and other kinds of medicine. He said I might go into quick consumption and might die in two or three months. His medicine did not do me any good. I heard of Dr. Pierce's Golden Medical Discovery and began taking it; when I had taken it about two months, according to directions, my cough was cured, and since that time we have always kept your medicine in the house."

Tr. Pierce's Pleasant Dellate regulate and

representatives were discussing a bill that had been under consideration in the afternoon. Stanley remarked:

"Clem Fairchild must have been drunk last night. He moved to strike out the enacting clause of that bill to-day. I examined it and found that it read just exactly like the enacting clause of every other bill."

#### OIL INSPECTION REFORM.

Senate Passes a Measure Putting Inspector on Salary and Extending Inspection.

TOPEKA, Feb. 18 .- (Special.) The senate this afternoon took up the oil inspection bill for consideration and, after adopting many important amendments, passed it by an almost unanimous vote. The bill was prepared by the senate committee on state sffairs, and in its original form it was perfectly satisfactory to the oil trust. Only in an indirect way did it include gasoline in-spection, and under it there would not have been any trouble for a dishonest oil in to construe it to mean that gasoline did not have to be inspected.

trust did not want gasoline included.

When the bill was first taken up, the oil trust lobbyists occupied a front seat in the senate gallery, and as section after section was read and adopted, the head pusher of the lobby would glance at the other mem-bers and all would take on a smile of satisfaction. Twenty sections of the bill were adopted without amendment and everything was going along lovely-for the trust About that time the attention of the senators was called to the defects in the bill by friends of the state auditor. The senators then began to amend by wholesale. Amend-

friends of the state auditor. The senators then began to amend by wholesale. Amendment after amendment was offered and adopted. This continued until the lobbyists were absolutely dumfounded. They had hoped to run the bill through with all of the holes in it because of the lack of knowledge the senators had of the question.

The bill as amended is considered a fairly good measure, aithough the one prepared by Auditor Cole and now pending in the house is regarded as much stronger. The measure as amended and passed to-day in the senate provides for a thorough examination of oil, gasoline, benzine and all other petroleum products. The word gasoline was not used in the original bill. The governor is to appoint a state oil inspector at a salary of \$150 a month, and five deputies with salaries of \$150 each, are to be appointed. Precaution is taken to prohibit the trust from palming off a low grade of gasoline on the state. The state inspector is required, on or before the 5th day of each month, to file with the state auditor a sworn statement of the amount of oil and gasoline inspected for the previous month, and turn in all the fees. An amendment was added to require the oil companies to file a sworn statement of the amount of oils and check on the inspectors.

Permission is granted persons to use gasoline lamps for illuminating purposes.

Heavy penalties are provided for the violation of the law either by the inspectors or the oil companies.

### A COUNTY PRINTING BILL.

W. L. Witmer Would Have Two Papers of Different Politics Chosen in Each County.

TOPEKA, Feb. 18.-(Special.) W. L. Witmer, business manager of the Kansas City, Kas., Gazette, came to Topeka to-day with a bill governing county printing. Witmer has a county printing fight on his hands now and in order to make it easier for him in the future he wants the legislature to do some legislating on the subject. His bill has not yet been introduced, but probably will be Monday. It is of great im portance to country editors. It provides portance to country editors. It provides that the board of county commissioners of each county shall, in January, of each year, Jesignate some newspaper having general circulation within the county as the official county paper. If more than one newspaper be published in any county representing different political parties, one representing the party casting the majority vote shall be designated as the official county paper and receive two-thirds of the rate for printing as fixed by law, and one other, paper representing the party that rate for printing as fixed by law, and one other paper representing the party that polled the next largest vote at the preceding election shall also be given the county printing at one-third the rate as fixed by law: Provided, however, that both papers so designated shall have a general circulation in the county where published and continuously issued for fifty-two weeks prior to such designation, before they can be considered a legal publication within the meaning of this act.

## ADJOURNMENT MARCH 10.

Seems to Be the Present Outlook for the Kanana Legislature.

TOPEKA, Feb. 18,-(Special.) The senatcurrent resolution providing that the introduction of all bills, except those carry-ing appropriations, shall cease next Monday evening at 6 o'clock. This is the thirteenth legislative day,

leaving twenty days for which the members will be paid.

The adoption of the Householder reso lution by the house, the senators believe, cause an adjournment sine die,

This date is acceptable to both houses. WILL MOVE TO LEAVENWORTH

Judge Myers Intends to Hold His Place in Spite of District Division.

TOPEKA, Feb. 18.-(Special.) Judge Louis A. Myers, of the Leavenworth-Jefferson-Jackson district, whose district has been cut in two by the legislature, proposes to move to Leavenworth and preside that, new district. Leavenworth is made a district by itself and retains the number of the old district, the new district will be composed of Jefferson and Jackson, and will be known as district No. 36. There are three candidates mentioned for appointment for judge in the new district—Cy Hurl, J. E. Hopkins and L. F. Randolph. The governor makes the appointment.

#### QUANTRELL RAID CLAIMS. Aggregate Was Nearly Half a Million of Which \$76,349 Is Still

Due. TOPEKA, Feb. 18.—(Special.) State Aud-tor Cole to-day furnished both branches of the legislature a statement containing information concerning the Quantrell raid certificates. The original amount of the certificates issued were \$362,557, bearing \$104.720 interest. Up to date there has been paid \$292,363 in principal and \$86,564 in interest. This leaves \$76,349 still due. The legislature will probably authorize the issue of bonds to take up this indebtedness.

Mr. Dewey's Assistants.

TOPEKA, Feb. 18.—(Special) T. E. Dewey, supreme court reporter, who succeeds G. C. Clemens March I, has appointed the following assistant reporters:

Harry F. Williams, Topeka, to succeed Otis Allen, of Topeka, W. J. Morse, Kansas City, Kas., to succeed Henry McLean, Paola,
J. A. Young, Emporia, to succeed Clarence Meily, Burlington.

### Case to Be Ousted at Once.

TOPEKA. Feb. 18.—(Special.) One week from Monday the new board of managers of the Hutchinson reformatory will meet and discharge Sam Case, the old superintendent, and install John Simmons in office. The reorganized board has been "stacked" against Case, and he will have to walk the plank in short order. To Consolidate Two Boards.

To Consolidate Two Boards.

TOPEKA. Feb. 18.—(Special.) An effort will be made by the friends of the administration to get the bill through consolidating the board of managers of the Hutchinson reformatory and the state pentientiary. Both of these are penal institutions, and one board can attend to them just as well as two boards. In the interests of economy the bill will be urged for passage.

the bill will be urged for passage.

Miss Kelly to Return to Klondike. TOPEKA, Feb. 18.—(Special.) Miss Emma Kelly will leave for her second trip to the Klondike in about three weeks. Miss Kelly said to-day that she would go to San Fran-cisco, thence north to Seattle and Dyea and up the country where she has her claims located.

### Local Bills Omnibused.

TOPEKA, Feb. 18.—(Special.) The house spent all the forenoon in committee of the whole, considering local bills. During the noon recess five clerks remained in session and read the bills aloud and immediately after dinner the bills were all omnibused.

ADMINISTRATION IS IN A HURRY FOR IT TO END.

JOINT CAUCUS IS TALKED OF

COMMITMENT OF HOPKINS OF ALL-ABSORBING INTEREST.

trong Lobby Working for the Location of the State Institutions-Only a Strong Slush Fund Can Accomplish It-New House Bills.

GUTHRIE, O. T., Feb. 18 .- (Special.) The commitment of Auditor Hopkins for con-tempt and his release from custody on a writ of habeas corpus continue to be the topic of all absorbing interest here. Multitudinous rumors of every variety are prevalent, the majority of them having absolutely no foundation. There is a grow-ing sentiment among Republicans that something must be done soon. One of the said this evening that it was the desire of the administration that the investigating committee finish its work immediately However, this seems to be impossible, with the impediments which have been thrown before the committee to stop progress This same senator said that the attitud of Hopkins, who, he alleged, is the catspaw of the governor, in wanting the committee to come to his office was ridiculous in the extreme. He said: "The vouchers are deposited in the safe of the Capital National bank for safety. If they can be taken to the bank, why can't they be brought before the committee? No one denies that the faces of the vouchers are correct, but what the committee desires is to bring in the parties who signed them ness. It would tend to make some wit nesses timid to appear in the presence Hopkins if he had to testify against There was a caucus held until midnight

There was a caucus held until midnight ist night, supposedly for all Republicans of both houses, but not all of them were invited. This caucus was held in United States District Attorney Overstreet's office. Mr. Overstreet was present and addressed those present. Overstreet is the smoothest of the administration leaders, and admonished conservativeness and asked that some means be devised whereby peace could be established. Nothing of a formal nature was decided upon. For the benefit of some friends of the investigators who were present it was decided to have the investigation proceed, but it was the consensus of opinion that it should be hurried through. Only two straight organisation men were present out of the ten.

It is now proposed that a joint caucus be held Tuesday night for the purpose of reaching some conclusion as to the future deliberations of the Republicans, two important matters being the final disposition of the public buildings and the attitude of the investigating committee. There is a very strong lobby here, which is using every means to have the public institutions located. A member of the house said to-day that nothing but a strong slush fund could accomplish any results. Perry, Oklahoma City and Kingfisher are unalterably opposed to having the buildings located now.

As the session draws to a close the lobbyists begin to pour into Guthrie. There is now a big fight regarding the dividing of Woods county. Some want the line to run north and south, while the other side wants an east and west division.

The present legislature has already made two junketing trips, and will on Tuesday take another to Norman, where a banquet will be served and speechmaking indulged in.

The first all-day session of both houses on Saturday was held to-day. Nothing but routine work was transacted.

The present legislature has already made two junketing trips, and mill on the organis Digest of Oklahoma for the courty of the territory o

and benefit of the colored people of said territory.

By Mailey—An act apportioning the Morrow fund between the Agricultural and Mechanical college at Stillwater and the university of Langston.

By Mertens—An act regulating the term of office of the county superintendent of public instruction.

By Hay—An act amending section 47 and section 48 of chapter 15, session laws of 1807, entitled, "An act to regulate fees and salaries of county officers and other purposes." By Holliday—An act for the betterment of public roads.
